These are full time permanent contracts based across the UK, with highly competitive salaries. You must be apprentice trained or equivalent and fully conversant with a varied range of products within this industry.

Requirements for this role include:

- Experience within the industrial door industry
- Strong interpersonal skills as there is extensive customer contact
- You will need to be safety conscious
- Duties may involve heights
- Duties will involve heavy lifting and moving heavy objects
- Willingness to work extra hours
- Must hold a current driving license
- Must have a UK work permit
- Electrical skills & qualifications - Installation & BS 7671, 17th edition of the IEE Wiring Regulations ideally
- IPAF / PASM
- CSCS Card.

We're committed to the personal development of all employees and can confirm that these positions include a host of benefits:

- Attractive salary package
- Ample opportunity for overtime
- contributory pension
- 20 days holiday
- company van
- laptop
- corporate clothing
- mobile telephone
- contributory pension
- specialised training
- equipment and PPE.

To apply please email your CV to [recruit@dortek.com](mailto:recruit@dortek.com)

## About Dortek

A global leading specialist in the design, manufacture and installation of hygienic and industrial doors. For 50 years we've specialised in providing door solutions to the world's leading pharmaceutical, nutritional, health and food companies.

Dortek is recognised throughout the markets we serve for its commitment to innovation, quality and customer care. We are a full service provider, as distinct from simply a door manufacturer. The emphasis on design, project management, installation, commissioning and service, allows us to be involved and ultimately take over the complete design to commissioning package.
